

WATER WISE, WALLET WISE

Being water wise can help you manage your household costs while making the most of every drop. Simple habits add up to benefits for both your home and your community.

DID YOU KNOW?

Toilets are the #1 indoor water waster! Hear it running? A quick repair can make a big difference!

DID YOU KNOW?

Most plants need far less water in fall and winter.

Check out these Smart Watering Tips:

- Water deeply, but less often.
- Don't overwater—lawns need less than you think.
- Collect rainwater for your plants.
- Keep sprinklers and irrigation systems maintained.
- Add mulch to help soil hold moisture.
- Choose native or drought-tolerant plants.

CONSERVATION PROGRAMS:

Toilet Rebate:

Make Every Flush Count

Get \$150 back on newly installed WaterSense toilets. Limit 2 per household.

Conservation Kits:

Simple Tools, Big Impact

Easy-to-use kits to fit your home's needs, indoors and out. The kits offer water efficient tools and devices that are quick to install.

Water Audit Program:

Audit Today. Save Tomorrow.

Find out where water is going in your home and how you can save. Call WaterWise Consulting at 1-866-648-2925 to schedule your audit.

Weather Based Irrigation Controllers:

The Smart Way to Water

Replace your standard irrigation controller with a controller that adjusts automatically to the weather. Call WaterWise Consulting at 1-866-648-2925 to learn more.
