

Beginning April 15, 2021 through September 30, 2021, Liberty is asking our customers to practice voluntary water conservation. Below is a suggested list of water efficient practices to help you save water. If you desire more information you may contact Liberty's regional office at (903) 730-4850 or visit our website at www.libertyutilities.com. You will be updated with any changes at the notice posting areas and on our website. We appreciate your effort and cooperation in the matter.

Water Efficient Practices

- Adjust your irrigation controller to irrigate your lawn before 6 a.m.
- Upgrade existing irrigation systems or landscaping to improve water use efficiency with tools such as weather based controllers or drip irrigation.
- Use mulch around shrubs and trees to retain moisture and reduce run-off.
- Use a pool cover to reduce evaporation, decrease the amount of time you spend refilling your pool, and keep it cleaner.
- Check for and repair leaks inside and outside of your home, including irrigation systems.
- Make behavioral water conservation changes such as turning water off while brushing your teeth or taking shorter showers.
- Replace water-using equipment with higher efficiency models. Look for the WaterSense and ENERGY STAR labels.

Check out our programs below that offer tools and resources to increase your water use efficiency!

No-Cost Conservation Devices: Aerators, a hose nozzle, a soil moisture meter, a shower timer, and toilet leak detection tablets at no cost. Have a kit mailed directly to you: Fill out a form online underneath the Smart Water Use tab on our website.

Virtual Water Audit: Contact our partner, WaterWise Consulting Inc. to provide free virtual indoor/outdoor audits to help determine if there are any leaks on your property and other ways to improve your water efficiency. Schedule your no-cost consultation today by calling 888-987-9473.

Workshops: Free workshops for residents with topics ranging from fixing leaks to gardening practices. Visit the News and Events tab on our website to see what workshops are available.

If you have questions about how you can use water efficiently, you can reach our water efficiency expert at 623-240-2096 or email ConservationTX@libertyutilities.com.
