

Liberty Utilities®

PUBLIC ANNOUNCEMENT

April 15, 2019

Beginning April 15, 2019 through September 30, 2019, Liberty Utilities is asking our customers to practice voluntary water conservation. We ask that you review the list of non-essential usage items plus familiarize yourself with common practices of conserving water. If you desire more information you may contact Liberty Utilities' regional office at (903) 730-4850 or visit our website at www.libertyutilities.com. You will be updated with any changes at the notice posting areas and on our website. We appreciate your effort and cooperation in the matter.

Thank you,

Shana Mahaffey, Compliance Operator
Liberty Utilities

Indoor

- Install or replace your faucet aerators. Save 1-2 gallons per minute.
- Take a 5 minute shower. 10 gallons of water are used for a 5 minute shower, 30+ gallons for a bath.
- Turn water off while brushing your teeth. Save 2-4 gallons every time you brush your teeth.
- Don't let the water run while washing dishes. Save 8-20 gallons of water.
- Only run full loads of dishes and laundry. Save up to 15 gallons per load.

Outdoor

- Plant native, water-efficient shrubs, trees, and grasses.
- Water lawn and plants early in the morning. In the morning there is less water lost to evaporation and wind.
- Don't cut more than 1/3 of your lawn's length at one time. Taller grasses hold moisture better.
- Use mulch around your shrubs and trees. It will retain moisture, reduce run-off, moderate soil temperature, and help with weed control.
- Use drip irrigation on your plants.
- If you use a spray nozzle on the end of your hose, it can save water while you wash your car, your pets, and other outdoor water activities.
